

KleenLine™ Pro Veggie Klean

ITEM # KL-9060090

KleenLine Pros efficient citric acid-based Veggie Wash is specially formulated for high-volume commercial use. This powerful wash lowers water pH to quickly dissolve water-resistant waxes, surface-level pesticides, dirt, and chemical residues. Delivering premium safety at a budget-friendly price point, it ensures your guests receive the cleanest fruits and vegetables possible.

DILUTE: For light soils, dispense product at 0.5 ounces per gallon. Use pH paper to confirm if pH=5. This pH this is the correct dilution ratio for 0.5 ounce per gallon. For heavy soils fruits and vegetables, dilute at 1 ounce per gallon. Use pH paper to confirm if pH=4. This pH this is the correct dilution ratio for 1 ounce per gallon.

SOAK: Submerge produce and agitate to release debris and allow to soak for 30 seconds.

RINSE: Remove produce from solution and rinse thoroughly.

STORE: Drain and store according to restaurant procedures.
