

# SAFETY DATA SHEET

This Safety Data Sheet (SDS) complies with the requirements of the U.S. Federal Occupational Safety and Health Administration Hazard Communication Standard (29 CFR 1910.1200, as updated in 2012) and equivalent state Standards. It has also been developed in accordance with the United Nations Globally Harmonized System of Classification of Chemicals (GHS) and the Canadian Workplace Hazardous Materials Information System (WHMIS). Refer to Section 16 of this document for the definition of terms and abbreviations.

## SECTION 1: IDENTIFICATION

### 1.1 PRODUCT IDENTIFIER

- ITEM NUMBER(S): 170299
- PRODUCT NAME: **FS No Rinse Food Contact Surface Wipes**
  - 170299: 80 CT 12/CS

### 1.2 RELEVANT IDENTIFIED USES OF THE MIXTURE

- RECOMMENDED USE: For cleaning of surfaces that come in contact with food.
- IDENTIFIED USERS: For use by janitorial staff.

### 1.3 DETAILS OF THE SUPPLIER OF THE SAFETY DATA SHEET

- MANUFACTURER/  
SUPPLIER:** Waxie's Enterprises, LLC, an Envoy Solutions Company
- ADDRESS:** 9353 Waxie Way; San Diego, CA 92123-1036
- BUSINESS PHONE:** 1-800-995-4466
- EMERGENCY PHONE:** 1-800-255-3924 (CHEMTEL; 24 hours)

### 1.4 OTHER PERTINENT INFORMATION

- This product is sold and used in relatively small volumes. This SDS has been developed to address safety concerns affecting small volume handling situations and those involving warehouses and workplaces where large numbers of these items are stored or distributed.
- EPA Registration # 6836-379-14994.

## SECTION 2: HAZARD IDENTIFICATION

### 2.1 CLASSIFICATION OF THE SUBSTANCE OR MIXTURE

#### OSHA/HCS Status

This product is labelled under the U.S. Federal Insecticide, Fungicide, and Rodenticide Act, which is required for compliance. **THE EPA-REGISTERED LABEL HAZARD INFORMATION FOR THIS PRODUCT IS PROVIDED IN SECTION 16.** The following information is offered as supplement to the required labeling and is prepared according to OSHA Hazard Communication (29 CFR 1910.1200).

#### Classification of the Substance or Mixture

Not rated as a hazardous material under OSHA hazard classification definitions (29 CFR 1910.1200, Appendices A and B).

### 2.2 LABEL ELEMENTS:

#### ELEMENT

#### Hazard Pictograms

Not Applicable

#### Signal Word

Not Applicable

#### Hazard Statements

Not Applicable

#### Precautionary Statements

##### Prevention

P103: Read label before use.

##### Response

P313: In case of accidental exposure, seek medical advice if irritation persists.

##### Storage

P410+403: Store in a cool dry place at room temperature away from direct sunlight. Triple rinse container and offer for recycling.

##### Disposal

P501: Dispose of contents and container according to the local, city, state and federal regulations.

### 2.3 OTHER PERTINENT HAZARDS NOT OTHERWISE CLASSIFIED

- Not applicable.

## SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

### 3.1 SUBSTANCES/MIXTURES

This product consists of fiber wipes moistened with the following formulation.

| CHEMICAL                             | CAS NUMBER  | GHS HAZARD CLASSIFICATION FOR CHEMICAL                                                                                                                             | % (w/w)   |
|--------------------------------------|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Water                                | 77-92-9     | Not classified.                                                                                                                                                    | 97-98     |
| Proprietary Ingredients <sup>1</sup> | Proprietary | Not classified.                                                                                                                                                    | 2.0-2.5   |
| Propan-2-ol                          | 67-63-0     | Flammable liquids (Category 2); Serious eye damage/Irritation (Category 2A); Specific target organ toxicity - single exposure (Category 3, Central nervous system) | 0.20-0.50 |

## SECTION 4: FIRST AID MEASURES

### 4.1 DESCRIPTION OF FIRST AID MEASURES

#### AREA EXPOSED

##### Eye Contact

Flush with copious amounts of water. "Roll" eyes during flush. Check for and remove contact lenses. Seek medical attention if irritation persists.

##### Skin Contact

Rinse thoroughly with water and medical attention if irritation if any irritation occurs.

##### Inhalation

Obtain fresh air if vapors cause irritation.

##### Ingestion

If conscious only: Rinse mouth with water. Do not induce vomiting. Contact a Poison Control Center or physician for instructions.

### 4.2 MOST IMPORTANT ACUTE AND CHRONIC EXPOSURE SYMPTOMS

#### • ACUTE HEALTH EFFECTS:

#### AREA EXPOSED

##### Eye Contact

Exposure to liquid component may cause mild eye irritation.

##### Skin Contact

No adverse effects are anticipated.

##### Inhalation

No adverse effects are anticipated.

##### Ingestion

No adverse effects are anticipated.

#### • CHRONIC HEALTH EFFECTS: Not applicable.

#### • TARGET ORGANS: Not applicable.

### 4.3 INDICATION OF IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT NEEDED

- **GENERAL INFORMATION: For all exposures:** In case of accident, or if you feel unwell, seek medical advice immediately. Take this document and a copy of the label to the healthcare professional.
- **RECOMMENDATIONS TO PHYSICIANS:** Treat symptomatically.
- **MEDICAL CONDITIONS AGGRAVATED BY OVEREXPOSURE:** None reported.

## SECTION 5: FIREFIGHTING MEASURES

### 5.1 EXTINGUISHING MEDIA

- **RECOMMENDED FIRE EXTINGUISHING MEDIA:** Dry Powder, Foam, Carbon Dioxide, or any other Class ABC extinguisher.
- **UNSUITABLE FIRE EXTINGUISHING MEDIA:** None known.

<sup>1</sup> The exact composition has been withheld as a trade secret. All relevant physical and health hazards have been declared, in accordance with regulatory requirements.

## SECTION 5: FIREFIGHTING MEASURES (Continued)

### 5.2 SPECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE

- **NFPA FLAMMABILITY CLASSIFICATION:**

NFPA Rating

NFPA Classification

Not flammable.

- **UNUSUAL HAZARDS IN FIRE SITUATIONS:**

**Decomposition Products**

Carbon dioxide, carbon monoxide, compounds containing nitrogen and chlorine, and irritating vapors.

**Explosion Sensitivity to Mechanical Impact**

Not applicable.

**Explosion Sensitivity to Static Discharge**

Not applicable.

### 5.3 ADVICE FOR FIREFIGHTERS

- Self-Contained Breathing Apparatus and full protective equipment for fire response should be worn in any situation. Move containers from fire area if it can be done without risk to personnel. Otherwise, use water spray to keep fire-exposed containers cool. Because this product is a cleaning agent, any equipment that comes in contact with this product can be rinsed thoroughly with water and then returned to service.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT, AND EMERGENCY PROCEDURES

The following procedures are applicable only to excess liquid that may be spilled from damaged containers:

- **RESPONSE TO INCIDENTAL RELEASES:** Personnel who have received basic chemical safety training can generally handle small-scale releases. Use caution during clean-up; contaminated floors and items may be slippery.
- **RESPONSE TO NON-INCIDENTAL RELEASES:** Generally, releases of this product will be no larger than the loss of one shipment of material. Subsequently, personnel can follow the instructions for incidental releases. As needed, respond to non-incidental chemical releases of this product (such as the simultaneous destruction of several pallets of this product) by clearing the impacted area and contacting appropriate emergency personnel.
- **RESPONSE PROCEDURES FOR ANY RELEASE:** Absorb spilled liquid with polypads or other suitable absorbent materials. Rinse area thoroughly.

### 6.2 ENVIRONMENTAL PRECAUTIONS

- Avoid accidental dispersal of spilled material into soil, waterways and sewers.

### 6.3 METHODS AND MATERIALS FOR CONTAINMENT AND CLEANING UP

- **SPILL RESPONSE EQUIPMENT:** Polypad or other absorbent material.

### 6.4 REFERENCES TO OTHER SECTIONS

- **SECTION 8:** For exposure levels and detailed personal protective equipment recommendations.
- **SECTION 13:** For waste handling guidelines.

## SECTION 7: HANDLING AND STORAGE

### 7.1 PRECAUTIONS FOR SAFE HANDLING

|                    |                                                                                                                                                                                                                                               |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hygiene Practices  | Keep out of reach of children. Follow good chemical hygiene practices. Do not smoke, drink, eat, or apply cosmetics in the chemical use area. Avoid inhalation of vapors, mists, sprays. Use in well-ventilated area. Avoid contact with eyes |
| Handling Practices | Employees must be appropriately trained to use this product safely as needed. Keep away from heat, sparks, and flame. Store in a closed container away from incompatible materials.                                                           |

### 7.2 CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

|                   |                                            |
|-------------------|--------------------------------------------|
| Storage Practices | Store away from sources of intense heat.   |
| Incompatibilities | See Section 10 (Stability and Reactivity). |

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 CONTROL PARAMETERS

#### AIRBORNE EXPOSURE LIMITS:

| COMPONENT   | ACGIH TLV                     | OSHA PEL      | NIOSH REL                                      | OTHER                                 |
|-------------|-------------------------------|---------------|------------------------------------------------|---------------------------------------|
| Propan-2-ol | 200 ppm (TWA); 400 ppm (STEL) | 400 ppm (TWA) | 400 ppm (TWA); 500 ppm (STEL); 2000 ppm (IDLH) | CA PEL: 400 ppm (TWA); 500 ppm (STEL) |

- BIOLOGICAL OCCUPATIONAL EXPOSURE LIMITS:** The following BEIs have been established for components of this product.
  - PROPAN-2-OL:** Acetone in Urine; End of Shift; 40 mg/L
- BIOLOGICAL OCCUPATIONAL EXPOSURE LIMITS:** Not applicable.

### 8.2 EXPOSURE CONTROLS

|                        |                                                                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Engineering Controls   | Use in well-ventilated environment.                                                                                                                                   |
| Respiratory Protection | None needed in normal circumstances of use.                                                                                                                           |
| Hand Protection        | None needed in normal circumstances of use. Neoprene, nitrile, or butyl gloves are recommended in the event of spill response. Ensure gloves are intact prior to use. |
| Eye Protection         | None needed in normal circumstances of use Safety glasses or goggles in the event of spill response.                                                                  |
| Body Protection        | None needed in normal circumstances of use.                                                                                                                           |

### 8.3 PERSONAL PROTECTION SYMBOLS

Hand Protection  
(Spill Response)

Eye Protection  
(Spill Response)

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 INFORMATION ON BASIC PHYSICAL AND CHEMICAL PROPERTIES

|                                     |                                                           |
|-------------------------------------|-----------------------------------------------------------|
| Appearance                          | Wipes.                                                    |
| Odor                                | Slight, alcohol                                           |
| Odor Threshold                      | Not determined.                                           |
| pH                                  | Approximately 7.0 for liquid component of the towelette.  |
| Melting Point/Freezing Point        | Not applicable.                                           |
| Initial Boiling Point/Boiling Range | 100°C (212 °F) for the liquid component of the towelette. |
| Flash Point                         | Does not flash.                                           |
| Evaporation Rate (nBuAc= 1)         | No data available.                                        |
| Flammability                        | No data available.                                        |
| Upper/Lower Explosive Limits        | No data available.                                        |

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES (Continued)

|                                       |                                                  |
|---------------------------------------|--------------------------------------------------|
| Vapor Pressure                        | No data available.                               |
| Vapor Density                         | No data available.                               |
| Relative Density                      | 0.997 for the liquid component of the towelette. |
| Solubility                            | No data available.                               |
| Partition Coefficient/n-octanol/water | No data available.                               |
| Autoignition Temperature              | No data available.                               |
| Decomposition Temperature             | No data available.                               |
| Viscosity                             | No data available.                               |

### 9.2 OTHER INFORMATION

- **VOC (less water & exempt):** Not determined.
- **WEIGHT% VOC:** Not determined.

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 REACTIVITY

- Not reactive under typical conditions of use or handling.

### 10.2 CHEMICAL STABILITY

- Normally stable under standard temperatures and pressures.

### 10.3 POSSIBILITY OF HAZARDOUS REACTIONS

- This product is not self-reactive, water-reactive, or air-reactive.
- This product will not undergo hazardous polymerization.

### 10.4 CONDITIONS TO AVOID

- Avoid contact with incompatible chemicals.

### 10.5 INCOMPATIBLE MATERIALS

- Strong oxidizing agents.

### 10.6 HAZARDOUS DECOMPOSITION PRODUCTS

- Products of thermal decomposition include oxides of carbon (i.e., carbon monoxide and carbon dioxide), compounds containing nitrogen and chlorine, and irritating vapors.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 INFORMATION ON TOXICOLOGICAL EFFECTS

- **ACUTE TOXICITY:**
  - **PRODUCT TOXICITY DATA:**
    - Acute Toxicity Estimate (oral) > 2000 mg/kg
    - Acute Toxicity Estimate (dermal) > 2000 mg/kg
  - **DEGREE OF IRRITATION:** The liquid component of this product may cause mild eye skin irritation, especially upon prolonged exposure. See Section 4 (First Aid Measures) for more details.
  - **SENSITIZATION:** The components of this product are not reported to have skin or respiratory sensitization effects.

## SECTION 11: TOXICOLOGICAL INFORMATION (Continued)

- **REVIEW OF ACUTE SYMPTOMS AND EFFECTS BY ROUTE OF EXPOSURE:** See Section 2 (Hazards Information) and Section 4 (First-Aid Measures) for additional details.

|                   |                                                                        |
|-------------------|------------------------------------------------------------------------|
| <b>Eyes</b>       | The liquid may be mildly irritating to the eyes.                       |
| <b>Skin</b>       | Prolonged exposure to liquid component may cause mild skin irritation. |
| <b>Inhalation</b> | No adverse effects are anticipated.                                    |
| <b>Ingestion</b>  | No adverse effects are anticipated.                                    |

- **CHRONIC TOXICITY:**

- **CARCINOGENICITY STATUS:** The following carcinogenicity data are available for components of this product.

| CHEMICAL          | IARC                                                            | NTP | NIOSH | OSHA | OTHER                                             |
|-------------------|-----------------------------------------------------------------|-----|-------|------|---------------------------------------------------|
| Isopropyl Alcohol | IARC-3:<br>Unclassifiable as to<br>Carcinogenicity in<br>Humans | NO  | NO    | NO   | TLV-4: Not Classifiable as a Human<br>Carcinogen; |

- **REPRODUCTIVE TOXICITY INFORMATION:** The components of this product are not reported to cause reproductive effects under typical circumstances of exposure.
- **MUTAGENIC EFFECTS:** The components of this product are not reported to cause mutagenic effects under typical circumstances of exposure.
- **SPECIFIC TARGET ORGAN TOXICITY – SINGLE EXPOSURE:** Not applicable.
- **SPECIFIC TARGET ORGAN TOXICITY – REPEATED EXPOSURE:** Not applicable.
- **ASPIRATION HAZARD:** Not applicable.

- **OTHER INFORMATION:**

- **TOXICOLOGICALLY SYNERGISTIC PRODUCTS:** None known.
- **ADDITIONAL TOXICOLOGY:** Not applicable.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 TOXICITY

- Based on available data, this product is not known to be harmful to terrestrial or aquatic plants or animals.

### 12.2 PERSISTENCE AND DEGRADABILITY

- When released into the soil, the liquid component of this product is expected to biodegrade, dissipate in soils via oxidation, or otherwise chemically degrade or photo-decompose via solar radiation.

### 12.3 BIOACCUMULATIVE POTENTIAL

- The components of this product are not anticipated to bioaccumulate.

### 12.4 MOBILITY IN SOIL

- It is to be expected the liquid component of this product will have some mobility in soil.

### 12.5 OTHER ADVERSE EFFECTS

- None reported.

## SECTION 13: DISPOSAL CONSIDERATION

### 13.1 WASTE TREATMENT METHODS

- Dispose of in accordance with local, State and Federal regulations.

### 13.2 DISPOSAL CONSIDERATIONS

- **EPA RCRA WASTE CODE:** Not applicable to wastes consisting only of this product.

## SECTION 14: TRANSPORT INFORMATION

### 14.1 DANGEROUS GOODS BASIC DESCRIPTION AND OTHER TRANSPORT INFORMATION

- DEPARTMENT OF TRANSPORTATION HAZARDOUS MATERIALS SHIPPING REGULATIONS:

| UN/NA Number   | Proper Shipping Name | Packing Group | Hazard Class | Label | North American Emergency Response Guide # | Marine Pollutant Status |
|----------------|----------------------|---------------|--------------|-------|-------------------------------------------|-------------------------|
| NOT APPLICABLE |                      |               |              |       |                                           |                         |

- IATA DESIGNATION:** This product is not regulated as dangerous goods by the International Air Transport Association.
- IMO DESIGNATION:** This product is not regulated as dangerous goods by the International Maritime Organization.

### 14.2 ENVIRONMENTAL HAZARDS

- None described, as related to transportation.

### 14.3 SPECIAL PRECAUTIONS FOR USERS

- Not applicable.

### 14.4 TRANSPORT IN BULK

- Not applicable.

## SECTION 15: REGULATORY INFORMATION

### 15.1 SAFETY, HEALTH, AND ENVIRONMENTAL REGULATIONS SPECIFIC FOR THE PRODUCT

- OTHER IMPORTANT U.S. REGULATIONS**

- U.S. SARA HAZARD CATEGORIES (SECTION 311/312, 40 CFR 370-21):** Not applicable.
- U.S. CERCLA REPORTABLE QUANTITY (RQ):** Not applicable.
- U.S. SARA 313:** No component is subject to the reporting requirements.
- U.S. TSCA INVENTORY STATUS:** All components of this product are listed on the TSCA Inventory.
- CALIFORNIA SAFE DRINKING WATER ACT (PROPOSITION 65) STATUS:** Not applicable.

- INTERNATIONAL REGULATIONS**

- CANADIAN REGULATORY STATUS: CANADIAN REGULATORY STATUS:** The product is not classified as hazardous under Hazardous Products Regulations (SOR-2015-17).
  - This SDS contains all the information required by the HPR.
- CANADIAN DSL/NDL INVENTORY STATUS:** The listed components of this product are on inventory or exempted.
- CANADIAN ENVIRONMENTAL PROTECTION ACT (CEPA) PRIORITY SUBSTANCES LISTS:** The components of this product are not on the CEPA Priority Substances Lists.

## SECTION 16: OTHER INFORMATION

### 16.1 INDICATION OF CHANGE

- DATE OF REVISION:** November 17, 2022.
- SUPERCEDES:** June 7, 2022
- CHANGE INDICATED:** Updated product information and formatting.

### 16.2 KEY LITERATURE REFERENCES AND SOURCES FOR DATA

- SAFETY DATA SHEETS FOR COMPONENT PRODUCTS.
- Federal OSHA Hazard Communication Standard: 29 CFR 1910.1200.

## SECTION 16: OTHER INFORMATION (Continued)

### 16.3 HAZARDOUS MATERIALS CLASSIFICATION SYSTEM

#### Product as SOLD

Health 0

Flammability 0

Physical Hazard 0

Protective Equipment -

HMIS Personal Protective Equipment Rating: Spill response situations: B - Safety glasses and gloves.

### 16.4 FEDERAL INSECTICIDE, FUNGICIDE AND RODENTICIDE, LABELLING

- This Safety Data Sheet provides supplemental information and does not replace or modify the EPA FIFRA-APPROVED PRODUCT LABEL (attached to and accompanying the product container). This document has been created to provide important health, safety, and environmental information for employers, employees, emergency responders and others handling the product in activities generally other than product use as required by the Occupational Health and Safety Act (29 CFR 1910.1200).
- All necessary hazard classification and appropriate precautionary use, storage, and disposal information is set forth on that label or labeling accompanying the pesticide or to which reference is made on the label. It is a violation of federal law to use an EPA-registered pesticide product in any manner inconsistent with its labeling.
- Label information for product:
  - Signal Word: None.
  - Hazard Statements: None.
  - EPA No: 6836-379

### 16.5 DISCLAIMER

*WAXIE Sanitary Supply makes no warranty, representation or guarantee as to the accuracy, sufficiency or completeness of the material set forth herein. It is the user's responsibility to determine the safety, toxicity and suitability of their own use, handling and disposal of this product. Since actual use by others is beyond our control, no warranty, expressed or implied, is made by WAXIE Sanitary Supply as to the effects of such use, the results to be obtained or the safety and toxicity of this product, nor does WAXIE Sanitary Supply assume any liability arising out of the use by others of this product referred to herein. The data in this SDS relates only to the specific material designated herein and does not relate to use in combination with any other material or in any process. WAXIE Sanitary Supply does not recommend blending this product with any other chemicals. All information, recommendations and data contained herein concerning this product are based upon information available at the time of writing from recognized technical sources.*

## SECTION 16: OTHER INFORMATION (Continued)

### 16.6 ABBREVIATIONS AND ACRONYMS

**ALL SECTIONS:** OSHA: U.S. Federal Occupational Safety and Health **ALL SECTIONS:** OSHA: U.S. Federal Occupational Safety and Health Administration. WHMIS: Canadian Workplace Hazardous Materials Standard. GHS: Globally Harmonized System of Classification of Chemical Substances.

**SECTION 3:** CAS Number: Chemical Abstract Service Number, which is used by the American Chemical Society to uniquely identify a chemical.

**SECTION 5:** NFPA: National Fire Protection Association. NFPA FLAMMABILITY CLASSIFICATION: The NFPA uses the flash point (F.P.) and boiling point (BP) to classify flammable or combustible liquids. Class IA: F.P. below 73°F and BP below 100°F. Class IB: F.P. below 73°F and BP at or above 100°F. Class IC: F.P. at or above 73°F and BP at or above 100°F. Class II: F.P. at or above 100°F and below 140°F. Class IIIA: F.P. at or above 140°F and below 200°F. Class IIIB: F.P. at or above 200°F. NFPA HAZARDOUS MATERIALS RATING: This is a rating system used to summarize physical and health hazards to firefighters. 0 = No Significant Hazard. 1 = Slight Hazard. 2 = Moderate Hazard. 3 = Severe Hazard. 4 = Extreme Hazard.

**SECTION 8:** NE: Not established. ACGIH: American Conference of Government Industrial Hygienists; TWA: Time-Weighted Average (over an 8-hour work day); STEL: Short-Term Exposure Limit (15-minute average, no more than 4-times daily and each exposure separated by one-hour minimally); C: Ceiling Limit (concentration not to be exceeded in a work environment). PEL: Permissible Exposure Limit. NIOSH: National Institute of Occupational Safety and Health; REL: Recommended Exposure Limit. ppm: Parts per Million. mg/m<sup>3</sup>: Milligrams per cubic meter. mppcf: Millions of Particles per Cubic Foot. BEI: Biological Exposure Limit.

**SECTION 9:** pH: Scale (0 to 14) used to rate the acidity or alkalinity of aqueous solutions. For example, a pH value of 0 indicates a strongly acidic solution, pH of 7 indicates a neutral solution, and a pH value of 14 indicates an extremely basic solution. FLASH POINT: Temperature at which a liquid generates enough flammable vapors so that ignition may occur. AUTOIGNITION TEMPERATURE: Temperature at which spontaneous ignition occurs. LOWER EXPLOSIVE LIMIT (LEL): The minimal concentration of flammable vapors in air which will sustain ignition. UPPER EXPLOSIVE LIMIT (UEL): The maximum concentration of flammable vapors in air

which will sustain ignition. ≈: Approximately symbol. VOC: Volatile Organic Compound.

**SECTION 11:** CARCINOGENICITY STATUS: NTP: National Toxicology Program. IARC: International Agency for Research on Cancer. REPRODUCTIVE TOXICITY INFORMATION: Mutagen: Substance capable of causing chromosomal damage to cells. Embryotoxin: Substance capable of damaging the developing embryo in an overexposed female. Teratogen: Substance capable of damaging the developing fetus in an overexposed female. Reproductive toxin: Substance capable of adversely affecting male or female reproductive organs or functions. TOXICOLOGY DATA: LDxx or LCxx: The Lethal Dose or Lethal Concentration of a substance which will be fatal to a given percentage (xx) of exposed test animals by the designate route of administration. This value is used to assess the toxicity of chemical substances to humans. TDxx or TCxx: The Toxic Dose or Toxic Concentration of a substance which will cause an adverse effect to a given percentage (xx) of exposed test animals by the designate route of administration.

**SECTION 12:** EC50: Effect Concentration (on 50% of study group); BOD: Biological Oxygen Demand. COD: Chemical Oxygen Demand. ThOD: Theoretical Oxygen Demand. TLM: Median Tolerance Limit.

**SECTION 13:** RCRA: Resource Conservation and Recovery Act. The regulations promulgated under this act are found in 40 CFR, Sections 260 ff, and define the requirements of hazardous waste generation, transport, treatment, storage, and disposal. EPA RCRA Waste Codes: Defined in 40 CFR Section 261.

**SECTION 15:** CERCLA: Comprehensive Environmental Response Compensation and Liability Act (a.k.a. "Superfund") and SARA: (Superfund Amendment and Reauthorization Act). The regulations promulgated under this Act are located under 40 CFR 300 ff. and provide "community right-to-know" requirements. TSCA: Toxic Substances Control Act: Rules regulating the manufacture and sale of chemicals found in 40 CFR 700-766. DSL/NDL: Canadian Domestic Substances and Non-Domestic Substances Lists.

**SECTION 16:** HAZARDOUS MATERIALS IDENTIFICATION SYSTEM RATING: This is a rating system used by industry to summarize physical and health hazards to chemical users and was originally developed by the National Paint and Coating Association. 0 = No Significant Hazard. 1 = Slight Hazard. 2 = Moderate Hazard. 3 = Severe Hazard. 4 = Extreme Hazard.
